Date Motion and Force
continued
BALANCED FORCES
Balanced forces produce a net force of zero.

Therefore, an object experiencing balanced forces will not change its motion. This means that an object at rest will remain at rest if the forces are balanced. An object in motion will remain in motion if the forces are balanced.

Chapter 11 FOCUS

Objectives 11.3.1

Identify changes in motion that produce acceleration. 11.3.2

Describe examples of constant acceleration.

11.3.3 Calculate the acceleration of an object. 11.3.4 Interpret speed-time and distance-time graphs.

11.3.5 Classify acceleration as positive or negative. 11.3.6

Describe instantaneous acceleration.
