The transcontinental railroads of the late nineteenth century were the first corporate behemoths. Their attempts to generate profits from proliferating debt sparked devastating panics in the U.S. economy. Their dependence on public largess drew them into the corridors of power, initiating new forms of corruption.

The heart of White's argument is that because the transcontinentals were built at tremendous cost before there was enough traffic to operate profitably they had to borrow heavily. The railroads sought to pay that debt through the sale of land, given to them through government land grants, bond sales, increasing traffic, or government largesse in the form of favorable legislation.
