While ordering FRP pipes the following data need to be provided to the vendor: Pipe Diameter; Design and Operating temperature of the service fluid. Design, operating, Surge ...

Introduction to FRP Pipes – What Is Piping

Pipe is made out of many types of material including ceramic, glass, fiberglass, many metals, concrete and plastic.In the past, wood and lead (Latin plumbum, from which comes the word 'plumbing') were commonly used.. Typically metallic piping is made of steel or iron, such as unfinished, black (lacquer) steel, carbon steel, stainless steel, galvanized steel, brass, and ductile iron.
