Download File PDF Lords Of Finance War Onejam

Plot summary. The book discusses the personal histories of the four heads of the Central Banks of the United States, Great Britain, France, and Germany, and their efforts to steer the world economy from the period during the First World War until the Great Depression. The book also discusses at length the career of the British economist John Maynard Keynes who criticized many of the policies of the heads of the Central Banks during this time.

Lords of Finance is a gripping story with forgotten yet worthy characters and villains hidden inside the drama of The Great Crash and Depression. It is a lively and fascinating "event by event" look at the slow motion lead up to The Great Crash, and the four men that could have prevented the Depression.
