Rumely Tractor Manuals and Information

The Rumely family (which owned, in some form, the companies until 1915) celebrated 150 years of the founding of the Rumely companies on March 15, 2003. At that time, ASME International, the American Society of Agricultural Engineers, and the Indiana Historical Bureau presented plaques recognizing the companies' historical significance.

The machines were marvelous and powerful in an age when most farmers still used horses to cultivate. In fact, the Rumely 30-60 OilPull was the first tractor to pull a 16-furrow plow. There's even a famous picture of three Rumely 30-60 OilPull tractors pulling a 50-furrow plow, which must've been quite a sight in 1911.

Rumely OilPull's were a line of tractors built by the Advance-Rumely Thresher company of LaPorte, Indiana, USA. The company introduced its first tractor in 1908 after employing engineer John Secor to work on the engine design for them. The 1st Rumely "OilPull" tractor was tested in 1909 and the machine became known as Kerosene Annie due to its ability to burn this fuel. The tractor survives to ...

Interestingly, the Universal 20-40 was itself the product of a 1911 merger between Northwest Thresher and Universal Tractor Co., Stillwater, Minn. Renamed the Rumely Gas Pull, the 20-40 was rerated as a 15-30 and sold alongside Rumely's OilPull line. Sales were evidently brisk at first, but ultimately the GasPull was a disappointment.
