I have a 98 115 non oil injected outboard and a set of LCD gauges from a 1997 150. Does anyone have a wiring diagram showing the interconnections between the speedometer and tachometer and motor. I have the Yamaha harnesses and see that most of the wires match up via color but I have a few that don't. Thanks for any help.

Several models of Evinrude outboards suggest an engine tune-up every 500 hours. However, many boat manufacturers don't include an engine hour meter in the instrument gauge package on the boats they produce. If this is the case with your boat, adding an hour meter will ensure that you are able to maintain your boat's power-plant
